

**INDIANA
HOUSEHOLD HAZARDOUS WASTE
GRANT PROGRAM**

ANNUAL REPORT

FISCAL YEAR 2004

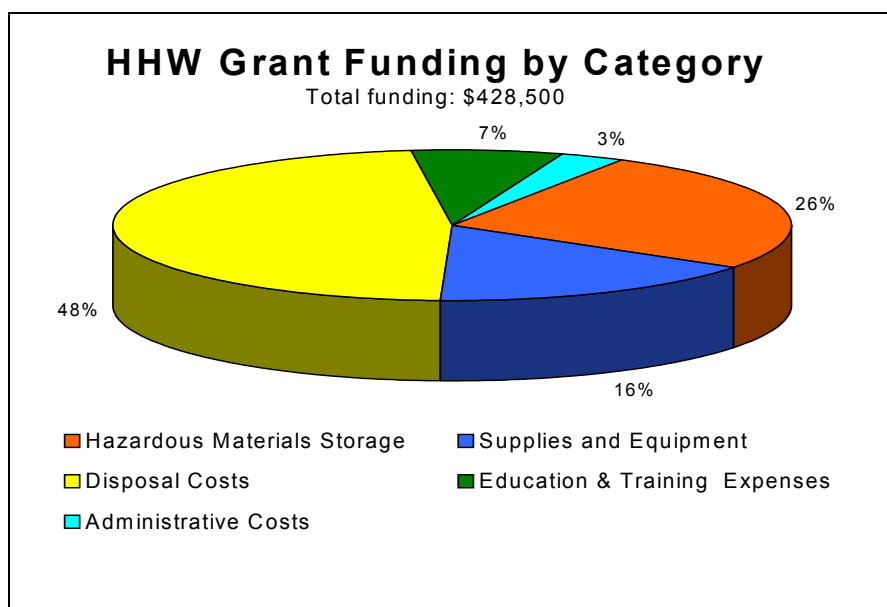

PROGRAM DESCRIPTION

Per Indiana Code 13-20-20-1 the Indiana Department of Environmental Management, Office of Pollution Prevention and Technical Assistance, Source Reduction and Recycling Branch provides matching grants to units of government and solid waste management districts (SWMD) through the Indiana Household Hazardous Waste Grant Program. The grants provide funding for projects involving the collection, recycling, or disposal of household hazardous waste (HHW) and conditionally exempt small quantity generator waste (CESQG). IDEM's objectives for the program are to:

- 1) Provide financial support for the establishment of permanent HHW and CESQG services throughout Indiana which are available to all residents and conditionally exempt generators in the areas served;
- 2) Support the safe and environmentally sound disposal or recycling of HHW and CESQG waste; and
- 3) Educate the public and CESQGs about source reduction, pollution prevention, and the safe management and proper disposal or recycling of HHW and CESQG waste.

Specific ways the grants may be used include:

- ♦ Education programs informing the public of less hazardous and/or nontoxic substitutes for typical household hazardous products to reduce the quantity of HHW and CESQG waste generated;
- ♦ Reuse and product exchanges to reduce the quantity of HHW

- being disposed; and
- ♦ The establishment of permanent facilities for the proper handling, storage, and disposal of HHW and CESQG waste.

ELIGIBILITY

Solid waste management districts, counties, municipalities and townships are eligible to apply for funding. IDEM encourages joint applications between two or more units of government. Businesses, commercial operations, not-for-profit organizations and programs that manage farm operations are not eligible for funding.

MINIMUM PROGRAM REQUIREMENTS

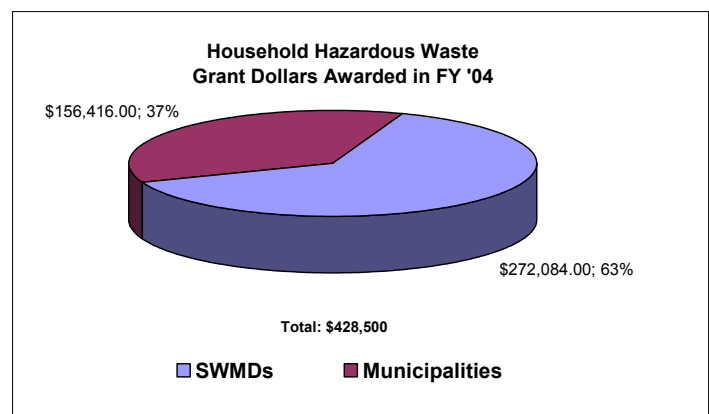

Grant funds may be used to start-up new programs or provide ongoing support for existing programs. Each application must include plans for effective public education and promotion. IDEM advocates that the most effective way to establish permanent HHW and CESQG services is to encourage the development of local, sustainable programs by limiting grant eligibility to permanent collection programs and not using grant funds to support one-day collection events known as "tox-away days." Permanent HHW collection programs must:

- 1) Advertise a regular schedule of operating hours;
- 2) Accept HHW from the public by appointment, in addition to regularly scheduled operating hours;
- 3) Provide public outreach and education;
- 4) Safely store collected HHW according to all applicable rules and regulations until transportation; and
- 5) Implement a material flow management plan.

FISCAL YEAR 2004 HOUSEHOLD HAZARDOUS WASTE GRANTS

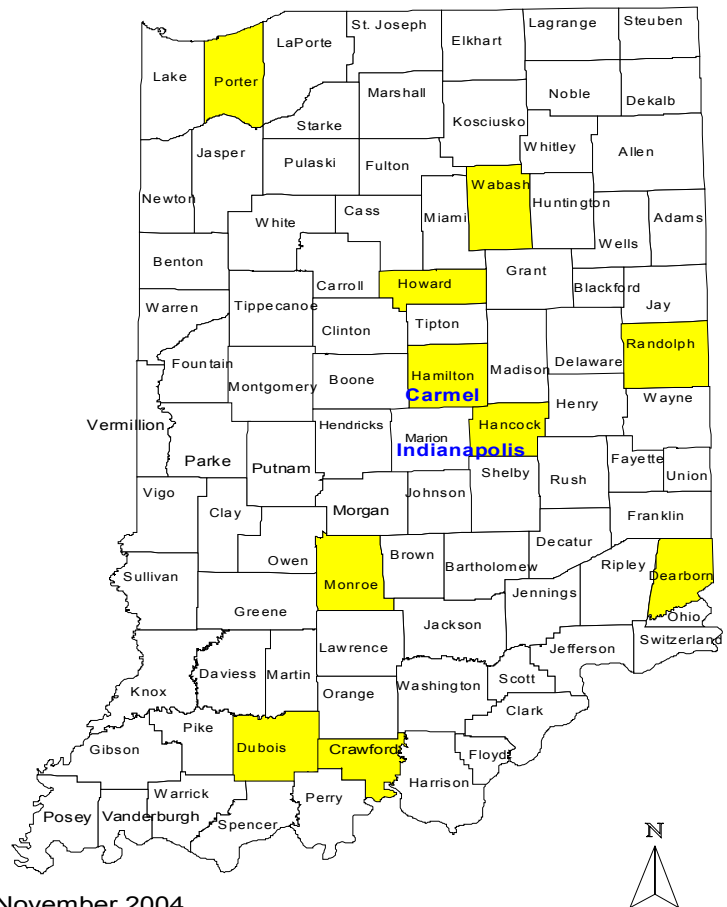

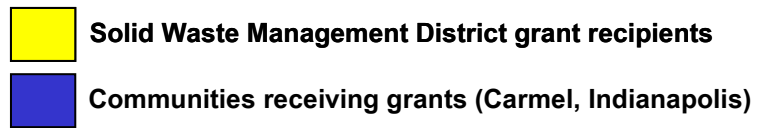

In Fiscal Year 2004, IDEM received 12 competitive grant applications. A committee, comprised of representatives from the private sector, SWMDs, the Indiana Association of Cities and Towns, the Indiana Department of Commerce, and IDEM reviewed the applications. Following the review, IDEM awarded full or partial funding totaling \$428,500 to the 12 applicants.

As indicated in the accompanying graphic, SWMDs received much of the funding to promote safe management, recycling and disposal of HHW.* The distribution of the grants is illustrated in the map following, as well as a summary of the 12 projects funded by the Indiana HHW Grant Program.

*IDEM has the authority under IC 13-20-20-1 to provide funding for household hazardous waste projects from the Hazardous Substances Response Trust Fund established by IC 13-25-4-1, and if money is available under IC 13-25-4-4 and the Solid Waste Management Fund established by IC 13-20-22-2. Of the 12 grants awarded, all were funded from the Hazardous Substances Response Trust Fund.

Distribution of HHW Grants Awarded in FY 2004

November 2004

City of Carmel, \$60,000

(Hamilton County)

The city of Carmel received funding assistance to improve safety and hazardous materials management at Carmel's permanent HHW facility. The facility provides collection and disposal services to Carmel residents. Carmel provides educational and promotional materials to educate the public regarding the proper disposal of HHW and the availability of the program. Grant funds support improved safety, hazardous materials management and storage, and assist with education expenses. A participant match of \$60,000 was pledged.

Crawford County Solid Waste Management District, \$2,000

The Crawford County SWMD received funding assistance to establish a permanent HHW program. The program provides collection and disposal services to Crawford county residents. The county provides educational and promotional materials to educate the public regarding the proper disposal of HHW and the availability of the program. Grant funds support safety improvements and enhancements in hazardous materials management and storage. A participant match of \$2,000 was pledged.

Dearborn County Solid Waste Management District

\$6,479

The Dearborn County SWMD received funding assistance to establish a permanent HHW collection program. The program provides collection and disposal services to Dearborn county residents. The district provides educational and promotional materials to inform the public regarding the proper disposal of HHW and the availability of the program. Grant funds support safety improvements and enhancements in hazardous materials management and storage. A participant match of \$6,479 was pledged.

Dubois County Solid Waste Management District

\$14,770

The Dubois County SWMD received funding assistance to establish a permanent HHW collection facility. The program provides collection and disposal services to Dubois county

residents. The district provides educational and promotional materials to educate the public regarding the proper disposal of HHW and the availability of the program. Grant funds support the purchase of equipment, supplies, and public education expenses. A participant match of \$16,120 was pledged.

Hamilton County Solid Waste Management District **\$60,000**

The Hamilton County SWMD received funding assistance for ongoing support of a permanent HHW collection facility. The program provides collection and disposal services to Hamilton county residents not served by the City of Carmel HHW program. The district provides educational and promotional materials to educate the public regarding the proper disposal of HHW and the availability of the program. Grant funds support the purchase of supplies, HHW disposal and public education expenses. A participant match of \$60,000 was pledged.

Hancock County Solid Waste Management District **\$9,125**

The Hancock County SWMD received funding assistance to educate teachers in the storage and management of chemicals used in high school chemistry labs, and to dispose of unwanted chemicals. Grant funds support the production of educational materials, the presentation of teacher workshops and disposal expenses. A participant match of \$9,487 was pledged.

Howard County Solid Waste Management District **\$12,000**

The Howard County SWMD received funding assistance to establish a permanent HHW collection facility. The program will provide collection and disposal services to Howard county residents. The district provides educational and promotional materials to educate the public regarding the proper disposal of HHW and the availability of the program. Grant funds support the purchase of a hazardous materials storage facility. A participant match of \$12,000 was pledged.

Indianapolis, City of **\$96,416**

The City of Indianapolis received funding assistance for ongoing support of its permanent HHW collection program. The program provides collection and disposal services to Indianapolis residents. The city provides educational and promotional materials to educate the public regarding the proper disposal of HHW and the availability of the program. Grant funds support the purchase of supplies, the purchase of a hazardous materials storage facility, HHW disposal and public education expenses. A participant match of \$96,416 was pledged.

Monroe County Solid Waste Management District **\$33,000**

The Monroe County SWMD received funding assistance for ongoing support of a permanent HHW collection facility. Monroe County SWMD provides collection and disposal services to residents, and educational and promotional materials to the public regarding the proper disposal of HHW and the availability of the program. Grant funds support HHW disposal and the purchase of supplies. A participant match of \$33,000 was pledged.

Porter County Solid Waste Management District **\$15,000**

The Porter County SWMD received funding assistance for ongoing support of a permanent HHW collection facility. Porter County SWMD provides collection and disposal services to residents, and educational and promotional materials to the public regarding the proper disposal of HHW and the availability of the program. Grant funds support HHW disposal. A participant match of \$15,000 was pledged.

Randolph County Solid Waste Management District**\$59,860**

The Randolph County SWMD received funding assistance to establish a permanent HHW collection facility. The program will provide collection and disposal services to Randolph county residents. The district provides educational and promotional materials to educate the public regarding the proper disposal of HHW and the availability of the program. Grant funds support the purchase of a hazardous materials storage facility, supplies, HHW disposal and public education expenses. A participant match of \$59,860 was pledged.

Wabash County Solid Waste Management District**\$59,930**

The Wabash County SWMD received funding assistance to establish a permanent HHW collection facility. The program provides collection and disposal services to Wabash county residents. The district will provide educational and promotional materials to educate the public regarding the proper disposal of HHW and the availability of the program. Grant funds support the purchase of a hazardous materials storage facility, supplies, HHW disposal and public education expenses. A participant match of \$59,930 was pledged.

UPDATE ON STATE HOUSEHOLD HAZARDOUS WASTE ACTIVITIES

The preceding section described the financial assistance that IDEM provides to support the establishment or improvement of household hazardous waste programs across the state. The following section updates other programs and activities the agency has been involved with to educate all Hoosiers, whether businesses or schools, about what their communities can do to reduce HHW generation and improper disposal of HHW.

Indiana Household Hazardous Waste Task Force

The Indiana Household Hazardous Waste Task Force, Inc. (Indiana HHWTF) continues to address HHW issues throughout the state. The Indiana HHWTF promotes the proper, environmentally-safe collection, recycling, and disposal of household hazardous waste. Members include solid waste management districts, cities, towns, and counties who manage HHW programs. Regional cooperative HHW grants and local funding have supported HHWTF members in diverting more than 3.4 million pounds of HHW from improper disposal since 2000.

In addition to continuing collection programs, the Indiana HHWTF created an educational piece in Fiscal Year 2004, "Professor HazBin's Household Chemical Education Packet." Focusing on buying, using, and disposing of household chemicals properly, the packet contains information and activities for elementary school students, teachers, and parents. Indiana HHWTF education programs continue to focus on the source reduction of HHW as well as proper disposal.

Although it has historically been an ad-hoc committee, the HHWTF has incorporated and is seeking official 501(c)3 non-profit status and expects to complete the process in 2005.

Indiana HHWTF, Inc., mission statement:

The purpose of the Indiana Household Hazardous Waste Task Force, Inc. is to seek and develop educational and practical opportunities to protect Indiana's environment and human health through environmentally and economically sound management of Universal and EPA exempt hazardous wastes. We promote cooperative efforts among public and private entities emphasizing a regional approach to education and proper handling and disposal of environmentally harmful materials.

Mercury Awareness Program

The Mercury Awareness Program (MAP) began in October 1998 through a partnership with the aforementioned Indiana Household Hazardous Waste Task Force, Inc., other solid waste management districts and communities across the state. With the support of IDEM grant funding, Indiana's MAP provides financial assistance through a network of mercury hubs for the recycling of collected mercury and mercury-containing products. Mercury collected through the seven local community and solid waste management district programs that serve as Hubs is recycled through a contractor. As of the end of Fiscal Year 2004, the Mercury Awareness Program has collected and recycled 5,743 pounds of mercury.

Seven Mercury Hubs

Allen County SWMD
Howard County SWMD
Indianapolis, City of
Lake County SWMD
Monroe County SWMD
Spencer County SWMD
Wildcat Creek SWMD

IDEM continues to work with industry partners, the Indiana HHWTF and Indiana solid waste management districts to sponsor and carryout mercury awareness and collection activities throughout the state.

Since July 1, 2001, House Enrolled Act 1901 requires solid waste management districts to implement mercury collection programs for the public and small businesses. Mercury Hubs provide a valuable service by serving as collection, storage and consolidation locations for mercury collected from program participants, solid waste management districts and communities until it can be transported to final recycling by a qualified contractor.

Education and Training

The Indiana Recycling Grant Program provided \$519,793 in Public Education and Promotion (PEP) grants to 48 SWMDs for recycling and HHW education and promotion in FY 2004. PEP grants are provided from the solid waste management fund and provide funding for not only recycling education and promotion, but HHW education as well. HHW educational activities included informing the public about HHW collection services and the safe management, use and proper disposal of HHW.

PEP funds were utilized to train SWMD staff in the safe handling and management of household hazardous waste and the safe operation of equipment and facilities. Funds were also used for SWMD staff to attend professional training and conferences that met IDEM requirements. PEP funding enabled many district personnel to receive required Occupational Safety and Health Administration training.

FUNDING REQUIREMENTS FOR 2005 PROGRAM

For 2005, IDEM's goal for the Indiana Household Hazardous Waste Grant Program is to reduce the improper disposal of HHW that damages infrastructure, harms individuals, and contaminates Indiana's water. IDEM's objectives are to develop a statewide infrastructure for HHW and CESQG collections and educate residents about the proper management and disposal of HHW.

The HHW grants awarded in FY 2004 provided financial and technical support for HHW programs across the state. The end result is more residents have access to proper disposal alternatives, and to reuse and recycling options for the hazardous waste they generate. Because many of the funded projects have a limited scope and limited HHW collection services, OPPTA's continued support for these HHW programs is critical (refer to "Household Hazardous Waste Services Map," and Attachment B, "Household Hazardous Waste Service Providers List"). The office will continue to work toward the expansion of HHW services to all areas of the state.

Household Hazardous Waste Services Map

Contact your local solid waste management district or community for program information; see the Attachment E., Indiana Household Hazardous Waste Service Providers list.

★ **Mercury Hub (see below)**

■ **Limited Waste Collection**

■ **Single Day Collection Program**

■ **Permanent Collection Program**

■ **Use Neighboring Program**

■ **Community-Based Programs
(Carmel, Clinton, Seymour
and Richmond)**

The **Mercury Awareness Program** collects mercury and mercury-containing devices from residents. Mercury Hubs provide consolidation, storage and recycling services through a contractor for communities and solid waste management districts participating in the Indiana Mercury Awareness Program.

November 2004

RECOMMENDATIONS:

IDEM, with input from external partners, will:

- 1) Continue to support the development of conditionally exempt small quantity generator education and disposal services;
 - 2) Continue to support the development and implementation of permanent household hazardous waste services; and
- Continue to provide funding support to programs that collect and recycle mercury Attachment A.

Saturday, April 20th
8 a.m. to 2 p.m.
Johnson County 4-H Fairgrounds

8th Annual SPRING

FREE Items Accepted:

TIRES
 -Up to 2 auto tires
 -Up to 2 truck tires
 -Up to 2 tractor tires

REUSABLE ITEMS for Goodwill

BATTERIES
 -Auto batteries
 -Household batteries
 -Cell phone batteries

HAZARDOUS CHEMICALS
 -Paint -Mercury
 -Stain -Cleaners
 -Pesticide -Pool chemicals
 -Fluorescent lightbulbs, ballasts

COMPUTERS

APPLIANCES WITHOUT COOLANT
 -Stoves -Dryers
 -Washers -Water Heaters

Enter off of U.S. 31 Between Dairy Queen & Wendy's

Low Cost Items Accepted:

APPLIANCES W/COOLANT \$10 EACH
 -Refrigerators -Freezers
 -Air Conditioners
 -Dehumidifiers

TIRES
 -Above 4 auto tires
 -Above 2 truck tires
 -Above 2 tractor tires

LARGE, BULKY ITEMS
 -Couches -Chairs
 -Mattresses -Televisions
 -Fans -Other Discards

For Johnson County residents only. Interested businesses must call to register.

Where To Take Items Not Picked Up At the Curb ¿Dónde llevar los objetos no recogidos del bordillo?

Where can we recycle antifreeze?
Ethylene glycol is toxic to kids and dogs. Bring to one of these locations to be recycled.
•Auto Diagnostic 600 Edison Rd. 474-1977. Call first.
•West Lafayette Street Dept. 705 S. River Rd. 24 hour
•Wildcat Creek Solid Waste District. 423-2858 call first.
¿Dónde podemos reciclar el anticongelante?
•Auto Diagnostic 600 Edison Rd. 474-1977. Llame primero.
•West Lafayette Street Dept. 705 S. River Rd. 24 horas.
•Wildcat Creek Solid Waste District. 423-2858. Llame primero.

Where do we recycle motor oil?
After you change your oil pour into a sturdy container and bring it to be recycled. Less than five gallons at a time.
•West Lafayette Street Dept. 705 S. River Rd. 24hr
•Autozone on US 52. 9am-7pm
El Aceite de Motor. Después de cambiar el aceite, póngalo en un envase duro y sólido para reciclarlo.
•West Lafayette Street Dept. 705 S. River Rd. 24 horas.
•Autozone on US 52 lunes - domingo 9am-7pm

Can we recycle oil filters?
Yes! Bring them for recycling to the West Lafayette Street Department at 705 S. River Rd. Open 24 hours. Place in grey bin next to the oil collection container.
Los Filtros de Aceite. Estos pueden contener una taza de aceite antiguo. Traiga los filtros para reciclarlos al.
•West Lafayette Street Dept. 705 S. River Rd. 24 horas.
Póngalos en el cubo gris al lado del cubo con aceite.

What about Refrigerators, Freezers, Air Conditioners, and Dehumidifiers?
These items have freon that must be removed by a certified technician to prevent more holes in the ozone layer. Call the Wildcat Creek District at 423-2858 for a list of vendors who will come get a CFC-appliance, take out the freon and recycle the metal for a hauling fee.
Los Refrigeradores, Las Congeladores y Los Acondicionadores de Aire. Estos objetos contienen el "freon" que tiene que ser quitado por el técnico certificado para prevenir la destrucción adicional de la capa de ozono. Llame al Wildcat Creek District al 423-2858 para la lista de los proveedores que van a recoger su refrigerador o acondicionador de aire, quitarle el freon y reciclar el metal por el precio de su transporte y destrucción.

Where can we recycle scrap metal?
Any item that is mostly made of metal such as old fence, hot water heaters, ovens, washers, dryers, metal lawn chairs and so on can be recycled. Take it for free to:
Oscar Wiese Co. 2407 N. Ninth St. M-F 8am-4pm, summer Saturday from 8am-11:45am also. 742-1102.
Los Trozos de Metal Cualquier objeto que está hecho de metal, como por ejemplo, valvulas, calentadores de agua, estufas, lavadoras, secadoras, cosas de jardín de metal, etc., se puede reciclar. Llévelas sin recargar al Oscar Wiese Co. 2407 N. Ninth St. Lunes-viernes 8am-4pm, también sábados de 8am-11:45am en verano. 742-1102

Where to recycle car batteries?
Bring them to be recycled at:
•West Lafayette Street Dept. 705 S. River Rd. 24hr
•Motor Auto Electric 101 Cambridge Drive, Lafayette
•Walt Mart Automotive, Lafayette
Los Baterías de Coche Tráigalas para reciclarlas al:
•West Lafayette Street Dept.
•Motor Auto Electric
•Walt Mart Automotive, Lafayette
